SATELIT PROJECT

Type of project: Erasmus + KA2 Capacity Building

Funding: European Commission - Executive Agency
Education, Audiovisual and Culture.

Budget: € 886,231

Date: 15/10/2016 - 14/10/2019

Role of AMU: Coordinator

Objectives: Strengthen the capacity of Maghreb
partner universities in terms of innovation, technology
transfer and research valorization in order to become
pilot universities in their respective countries.

Website: <http://www.satelit-project.com/>

21 partner institutions in Algeria, Spain, France,
Italy, Morocco and Tunisia.

THE PARTNERSHIP

Outputs

Six pilot technology transfer offices were funded at a cost of € 31,900 each by the project in Algeria, Morocco and Tunisia.

- **i-Maps** : Enrichment of the cartography with the addition of the actors of the SATELIT project.
- **i-Success** : Present portraits of project leaders from partner universities.
- **i-Library** : Online release of the MOOC project SATELIT about Tec Transfer.

THE PARTNERSHIP

Benefits

Benefits for the SATELIT project:

- Sustainability: The Next Society community aims to continue beyond 2020 (probable funding renewal)
- Strengthened link with the innovation ecosystem, especially private players.

Benefits for the THE NEXT SOCIETY project:

Build as broad a community as possible to:

- Strengthen the impact and sustainability of the action plan.
- Encourage exchanges of best practices.
- Promote synergies.
- Be able to send relevant proposals for action to the European Commission.

THANK YOU FOR LISTENNING

THE
NEXT
SOCIETY
